---

Projects

Design and Software Development Portfolio Website – https://nouveau-portfolio.vercel.app/

- I designed and developed my portfolio website using React, Next.js, and Tailwind CSS, creating a visually appealing and responsive platform to showcase my design and software development work. This project demonstrates my expertise in modern web technologies and design aesthetics.

Fortune Telling App – https://in-the-cards.vercel.app/

- I created a full stack tarot card fortune telling app using React, Next.js, and Tailwind CSS for the frontend, and Firebase-Firestore for the backend. With 156 different documents in the database, resulting in over 500,000 possible fortunes, this project demonstrates my ability to create, utilize, and manipulate large amounts of data to achieve the end-goal of my projects.

Art Portfolio Website – https://nouveau-art-portfolio.vercel.app/

- I crafted a unique digital showcase of my fine art portfolio using React, Next.js, Tailwind CSS, MaterialUI, and Redux. This project displays my dedication to blending artistic expression with modern web technologies, creating a platform that allows me to maintain an online presence as an artist.

Experience

November 2023 - Present – Frontend Development Internship, OneVerifi, Oklahoma City, OK

- This is a verification SaaS startup based in OKC. I work directly with the CEO and VPO to create and update existing features for the site and web-app. I also participate in QA analysis by identifying, reporting, and fixing bugs.

April 2020 - Present – Multimedia Artist and Designer, Self Employed, Oklahoma City, OK

- I create, display, and sell my art as well as occasionally do freelance design work.

April 2021 - January 2022 – Visitors Experience Associate, Oklahoma Contemporary, Oklahoma City, OK

- I worked the front desk, set up for events, helped guests, and watched the artwork.

Education

Jan 2022 - December 2022 – Nucamp Frontend, Backend, and Full Stack Software Development Bootcamps

Aug 2015 - Apr 2020 – University of Science and Arts of Oklahoma, Chickasha, OK
        Bachelors of Fine Art, Concentration: Expanded Media
        Graduated Magna Cum Laude
